

Dear Retro-Renault Enthusiast,

We'd like to tell you about a new internet site/club that we know you'd be interested in.

The Retro-Renault club and forum was set up to cater for owners of the older Renault models, namely the 19 and those before it. One thing we wanted to avoid was the neons and washer jet modding scene which is so common in the other clubs.

We have a number of members from all over the world ranging from the UK, Ireland, Columbia, Denmark and Portugal.

For more information please email [info@retro-renault.com](mailto:info@retro-renault.com)
